Surgery Follow Up Day - December 22nd, 2016

Submitted by [joeintern](#) on Tue, 12/22/2015 - 2:00pm

This first photograph is me one month after being released from Vanderbilt. I had lost weight down to 235 pounds. My lowest weight since just after high school. I definitely felt lucky to be alive and thankful to god for letting me live another day. I continue to be blessed. Thanks to all who prayed for me, visited me, and took care of me. A special thank you to my loving wife for being there for me.
